QUESTION 1: TRANSLATION (80 marks)**Translate into French**

Mbeki was resting under a tree with his wife, Ada. They were to go out in the afternoon with their children, who were waiting in the parlour. They will go and watch the first football game in the new stadium of their city.

In the past, the rainy season started in March, but it was already April, and the heat was still unbearable. What is happening to our planet, Mbeki always wondered.

One of his daughters had told him about climate change, something he hardly understood. He called out to her and when she came, asked her:

“Patou, I don’t understand this climate thing! What do you say teachers tell you in class?”

“Daddy,” Patou answered. “Our geography teacher says the seasons are irregular because people fell trees but don’t replace them. When human beings will learn to plant trees, the seasons will be more regular.”
