- 8** Discuss the importance of decision trees in planning for a business enterprise. [6]
- Total marks [40]

SECTION B

Read the passage below and answer the questions that follow:

Chikoti (Pvt) Ltd

Chikoti (Pvt) Ltd is a chemical manufacturing enterprise which started its operations in 2014. The enterprise is based in Rusape, and is located in a light weight industrial area.

The firm produces agricultural and industrial chemicals that might be harmful to human health such that there is need for safety clothes like goggles, masks and safety shoes. Workers are continuously taken through intensive training within the organisation on safety measures and are also encouraged to report any accidents. At its inception, the firm recorded rising sales. However, its fortunes were reversed due to negative economic conditions such as unemployment, inflation and cashflow shortages. This resulted in the firm's sales plunging to a low record in 2015.

In 2016, positive developments emanating from government's macro-economic policies meant to revitalise the economy changed the fortunes of the company. Command Agriculture, ZIMASSET and recapitalisation of the industry are the policies that resulted in the chemical firm registering rising demand. The increase in demand makes the firm to consider increasing its capacity. The firm had two options:

- (i) developing another plant near a water source, i.e. Rusape dam, or
- (ii) contracting-out

The Public Relations Manager was concerned about the extent to which option (i) was environmentally friendly. The firm has to comply with government's environmental regulations.

At the same time the government came up with measures to support firms producing for exportation. The removal of trade barriers among nations has created opportunities to enter into foreign markets. The government is encouraging local firms to take advantage of this opportunity to expand their operations into these foreign markets.

- 9
- (a)
 - (i) Identify any **two** stakeholders of Chikoti (Pvt) Ltd as mentioned in the case. [2]
 - (ii) Explain any **two** methods of training which can be used by the enterprise to equip its workers on safety measures. [4]
 - (b) Explain how the enterprise is complying with health and safety regulations. [4]
 - (c) Examine possible factors that can influence Chikoti (Pvt) Ltd when making the location decision for the new plant. [10]

- (d) Discuss the effects of globalisation to the economy of your country.

[10]

Read the passage below and answer the questions that follow:

Taftan Wedding Specialists

Taftan Statement of Financial Position as at 30 June 2016

			<u>50 000</u>

Initially the business was doing so well due to low competition. However, competition intensified in 2016 as new players, joined the industry. In order to beat competition, the business had to invest in new technology and to recover lost market share. To achieve this successfully, the enterprise has to raise adequate finance.

10 (a) Calculate

- (i) current ratio; [2]
- (ii) acid test (quick) ratio [3]

- (b) Comment on the liquidity position of the business using your answers in **a(i)** and **a(ii)**. [6]
- (c) Explain the benefits of any **three** possible sources of external finance that can be used by the business to finance their projects. [9]
- (d) Assess possible benefits of introducing new technology to a business enterprise. [10]
