- 1 The total of the discount received column in the cash book for January, \$135, had been credited to the commission receivable account.

- 4 The total of the analysis column for cleaning in the petty cash book, \$73, had been transferred to both the cleaning account and the office expenses account.
- 5 The purchase of equipment, \$575, had been credited to the equipment repairs account. The bank account had been correctly credited.
- 6 No entries had been made for a cheque payment for office expenses, \$90.
- 7 A cheque, \$69, paid to Simone had been posted to the account of Simon.

- (b) Prepare the suspense account. Include the original difference on the trial balance, as a balancing figure.
