   Before the Examination begins:
3. Check that this question booklet is headed "Ordinary Level – 0570 Mathematics, Paper 1".
4. Fill in the information required in the spaces provided above.
5. Insert the information required in the spaces provided on the answer sheet using your HB pencil:
   Candidate Name, Centre Number, Candidate Number, Subject Code Number and Paper Number.
   How to answer questions in this examination:
6. Answer ALL the 50 questions in this examination. All questions carry equal marks.
7. **Non-programmable calculators are allowed.**
8. For each question there are four suggested answers, A, B, C, and D. Decide which answers is correct. Find the number of the question on the Answer sheet and draw a horizontal line across the letter to join the square brackets for the answer you have chosen. For example, if C is your correct answer, mark C as shown below:

$$\left[A \right] \quad \left[B \right] \quad \left[\!\!\!\!\!-\!C\!-\!\!\!\! \right] \quad \left[D \right]$$

9. Mark only one answer for each question. If you mark more than one answer, you will score zero for that question. If you change your mind about an answer, erase the first mark carefully, and then mark your new answer.
10. Avoid spending much time on any question. If you find a question difficult, move to the next question. You can come back to this question later.
